## TIPS TO IMPROVE YOUR COMMUNICATION

### "Prepare cheat sheets"

**P**art of nervousness around speaking is the feeling of not knowing what to say. To combat this, prepare a cheat sheet. Are you going to the doctor's? Before your appointment, research vocabulary relating to your condition and some common phrases you'll probably need. Use the technique before going to pay a bill, eating at a restaurant, job interviews, making a complaint, or for any other situation that might make you anxious.
